Purpose of Recitation: The purpose of this recitation section is to improve your problem solving skills as we move through the material and to develop your ability to work collaboratively on mathematics. Most of the time, you will be working in small groups. I will shuffle these groups every two weeks and I may ask you to present results. I will be available to help you as you work. The worksheets used in recitation can be found on my website as well as on the course website.

Recitation Quizzes: Quizzes will be given on most Thursdays; for the schedule see the course calendar. Calculators will **not** be allowed for quizzes. The quiz grades contribute to your overall course grade as described in the grading section of the course website. Solutions will be posted on the course website.

Attendance and Tardy Policy: I will take attendance at every recitation meeting. A student will be counted absent if they are more than 10 minutes late to class without a valid excuse. If there are special circumstances that will require you to be late to class on a regular basis please contact me as soon as possible. To be excused, you must email me or see me after class, explain the reason for the absence, and provide appropriate documentation. Please refer to §5.2.4.2 of the Student Code of Conduct for what constitutes an excused absence (<http://www.uky.edu/StudentAffairs/Code/part2.html>).

MA194 Grading: You will pass MA 194 if you have at most 2 unexcused absences during MA 114 recitations and you pass MA 114. If you fail MA 114 you will automatically fail MA 194. If you pass MA114 but have 3 or more unexcused absences in recitations you will fail MA194.

Class Expectations: In order to promote a healthy learning environment, I expect all students to be respectful to all members of our learning community. Specifically, I ask all students to bring the current worksheet to class, to turn off all cell phones, and to actively participate in recitation activities. If you wish to use a laptop or similar electronic device, you must use it only for class-related purposes. I reserve the right to ask you to put away such devices if they are causing distraction to you or others.

Contact Hours: You should feel free to contact me via email and using the Email Instructor link in WebWork. I will typically respond the same day to emails sent between 8am and 5pm. Emails sent after this may not receive a response until the next day. I will attempt to respond to all emails within 24 hours.

Academic Accommodations: If you have a documented disability that requires academic accommodations, please notify me as soon as possible. In order to receive accommodations in this course, you must provide me with a Letter of Accommodation from the Disability Resource Center (725 Rose Street, Multidisciplinary Science Building, Suite 407, 859- 257-2754) for coordination of campus disability services available to students with disabilities.

Academic Integrity, Cheating, and Plagiarism: Per university policy, students shall not plagiarize, cheat, or falsify or misuse academic records. Students are expected to adhere to University policy on cheating and plagiarism in all courses. The minimum penalty for a first offense is a zero on the assignment on which the offense occurred. If the offense is considered severe or the student has other academic offenses on their record, more serious penalties, up to suspension from the university may be imposed. Plagiarism and cheating are serious breaches of academic conduct. Each student is advised to become familiar with the various forms of academic dishonesty as explained in the Code of Student Rights and Responsibilities. Complete information can be found at the following website: <http://www.uky.edu/Ombud>. A plea of ignorance is not acceptable as a defense against the charge of academic dishonesty. It is important that you review this information as all ideas borrowed from others need to be properly credited.
